Most creators open with 'hey babe' and wonder why nobody answers. A good opener does three things: it feels personal, it is easy to answer, and it gives them a reason to keep talking. These starters are sorted by who you are messaging. Fill in the [brackets] and always ask something they can answer in one line.

Brand-new subscriber

The first 24 hours decide if they ever spend. Open warm and curious.

hey, thank you for subscribing, that genuinely made my day. quick question so i don't send you random stuff: what made you hit follow?

new here? let me actually get to know you instead of spamming you. what are you into, and what should i call you?

Quiet fan you want back

you popped into my head today and i realized we haven't talked in a bit. how have you been, honestly?

okay i'll go first: i missed you. what have i missed with you?

Your top spenders

Make them feel like the VIP they are.

THE VIP NUDGE

you're one of my favorites and i don't say that to everyone. i want to do something just for you, what's a fantasy you've never told anyone?

Playful openers that get replies

- 'this or that: [option A] or [option B]? i'll judge you either way.'
- 'be honest, are you a troublemaker or do you just look like one?'
- 'i need a second opinion on something. can i show you?'
- 'rate my [content/outfit] out of 10 and i'll rate your honesty.'
