OnlyFans PPV Captions

Captions that get the unlock, so your best content doesn't sit there unopened.

The caption is the salesperson. You can send incredible content and still get ignored if the words around it fall flat. This swipe file gives you captions built to do one job: earn the unlock. Use them as written, or fill in the [brackets] so each one sounds like you. Three rules make all of them work harder: sell one idea per message, tease the thing they cannot see yet, and always end on a nudge to open.

Curiosity hooks

Open a loop their brain needs to close. Great as the first line of a send.

THE ALMOST-TOO-NERVOUS

i went a little further than i ever have on camera and i'm almost too nervous to send it... promise you won't tell? unlock and see exactly what i mean.

THE YOU-ASKED-FOR-IT

you kept asking what i do when i'm home alone. i finally filmed it. it's in your unlocks now, don't make it weird tomorrow.

THE FIRST TIME

first time i've ever done [thing] on camera. i'm not sending this to everyone. open it before i change my mind.

Tension builders

Send in the message before the PPV to warm them up.

i've been thinking about you all day and it turned into something i probably shouldn't have filmed. want to see where my head went?

i'm going to send you something in a minute. don't open it at work. actually... maybe do.

be honest, have you been thinking about me too? because i made proof of what i was thinking about you.

Closers

The last line. Make opening the easy, obvious next move.

it's waiting for you right above this message. tap it and tell me what you think, i'll be right here.

unlock it and send me one word after. i want to know it landed the way i hoped.

go on, open it. i didn't film this to leave you guessing.

Fill-in-the-blank frames

Swap the [brackets] for your content and voice.

- i finally filmed the [content] you've been begging me for. it's [length] minutes and i did NOT hold back. unlock?
- little gift for my favorite [nickname]: [content]. open it and let me know if you want more like it.
- i'm feeling [mood] tonight and it shows in this one. tap to see what that looks like.
- sent this to the fans i actually like. you're one of them. don't leave me on read.
